

AEROSPACE INDUSTRY BUSINESS AFTER HOURS

Virtual Webinar Format

Thursday, October 15, 2020

6:00pm – 7:30pm

The New England Air Museum is Proud to Present

“Powering a Sustainable Future”

**Dr. Michael Winter, Senior Fellow, Advanced Technology
Pratt & Whitney**

During his 30-year career, Dr. Winter has made contributions working with fuel cells, lasers, and combustion & propulsion systems. He is currently responsible for Pratt & Whitney’s technology portfolio. Dr. Winter teaches “Engines 101,” to help people better understand how jet engines function, and what technology changes might take place in the industry that will lead to a more sustainable future. This program is guaranteed to be enlightening for those with technical backgrounds as well as anyone interested in learning about jet engine technology today and in the future.
